APPLICATIONS

Warehouse

Our scrubbers are sought-after in warehouses and distribution centers for their efficiency and scrubbing abilities cleaning dusty floors while leaving them dry and safe.

Food & Beverage

The high cleanliness standards of the food and beverage industry necessitate the use of innovative floor scrubbing solutions to ensure a safe and hygienic environment for both production and consumption.

Manufacturing

As a large manufacturer we understand the unique requirements of production companies. We provide equipment that manages the cleaning needs arising from the processing of various materials like steel, plastics and wood.

Assembled By Hand

Our American workforce hand-builds each machine with components sourced almost 90% from American suppliers. We routinely pay more for these domestically supplied components required to build a superior product. All design, prototyping, production and testing is done in-house where we can best control quality.

Our Family's American Dream

RPS **has been family owned from its inception in 1986, and proudly builds in Wisconsin (USA). The company has grown over the last 35-years with a strong group of executives including the 2nd generation of family owners who started in the shop as youngsters.**

Build Sustainability

We design our equipment with a high percentage of recyclable components and operate our facilities with energy and water conservation as priority.
